

REEFLEX[®]

**4 WHEEL
DRIVE WIRE
FEEDER**

Designed and
manufactured
in South Africa

4 Geared
Drive Rollers

Powerful
120 W Motor

24V AC Input

REEFLEX[®]
WELDING

FEATURES

- ▶ Very robust 120 W DC Motor and Drive Gears
- ▶ Very accurate speed control – superb welding
- ▶ Ramp-up control – controlled acceleration
- ▶ Gas pre-flow and postflow built-in – factory adjustable
- ▶ Burn back control
- ▶ Wire sizes from 0,6 mm ø to 3,2 mm ø
- ▶ Takes all sizes and types of MIG/MAG wire e.g. mild steel, stainless, aluminium, flux-core etc.
- ▶ Power and Trigger LED indicators
- ▶ 2 Year guarantee
- ▶ 2T/4T trigger configuration selectable
- ▶ Gas purge function
- ▶ Inch control
- ▶ Robust wheels
- ▶ Trolley available

Designed and Manufactured in South Africa for harsh african welding conditions

TECHNICAL SPECIFICATIONS

INPUT		
INPUT VOLTAGE	24V AC	
INPUT CURRENT	6A max	
WEIGHT	20 kg	
DIMENSIONS	HEIGHT	340 mm
	LENGTH	550 mm
	WIDTH	360 mm <small>Including wheels</small>
